Upcoming Precalculus

Skills a students needs to understand to prepare for success as a Precalculus student are:

- Must be fluent with math facts
- Should be able to simplify radicals
- Should have a good understanding of imaginary numbers, complex numbers and operations
- Should have a good understanding of adding, subtracting, and multiplying polynomials:
- Should know the exponent rules of algebra
- Should be able to factor polynomials
- Should be able to graph linear functions and quadratics

Helpful links for practice of these skills and more:

- [Get ready for Precalculus | Math | Khan Academy](#) - print final page showing completion and number of mastery points each section and turn it in when you come to school. It will count as your first quiz grade.
